azur100 ranking: GSK Stockmann among the top 15 employers for lawyers

According to the current azur100 Ranking 2020, GSK Stockmann is one of the TOP 15 employers for lawyers and has succeeded in increasing its attractiveness as an employer from 22nd to 15th place.

According to the azur rating, the decisive factors for the good overall assessment of the law firm are above all an extensive associate training (GSK Academy), above-average satisfaction of the employees with regard to promotion opportunities and career advancement of the firm as well as overall very good team and firm mentality. The associates also praise the high degree of independence in the work on the client's behalf and the opportunity to become involved and actively participate in the development of the law firm. Superior marks have been given for the clear career-level system of the associates as well as the comprehensive internship program.

"We are very pleased that we obviously have many associates who feel comfortable working with us. This positive perception of us as an employer encourages us to continue taking the perspective of our employees in order to remain attractive as a law firm and employer in the future," said Oliver Glück, Co-Managing Partner at GSK Stockmann.

"The young lawyers appreciate the great team and firm mentality, the possibility to work in an independent manner close to the client and the feeling of being supported in the best possible way on their career path in the firm. The special thing about this is that our associates themselves play a major role in the promotion of young talent and, for example, are actively involved in shaping our internship programs and take time every day to train young colleagues. We are proud of our associates and the good rating as a TOP-15 employer, which we would not have achieved without them. The award is a great recognition for the firm and at the same time an obligation for us to continue on the path of modern and attentive human resources management."

Every year, the career magazine azur publishes "azur100 Top Employers", a list of the top 100 employers for lawyers. For this, both applicants and associates are

interviewed by the azur editorial team, and data and key figures from the law firms are also included in the evaluation.
