➤ “A dynamic team with an abundance of experience and lots of creativity. That’s what makes teamwork fun!”

CEO of an energy supplier

Energy

We advise energy suppliers, project developers, investors and local authorities on all aspects of energy law (the German Energy Industry Act (EnWG), the German Renewable Energy Sources Act (EEG), the German Combined Heat and Power Act (KWKG), and the German Electricity Tax Act (StromStG), etc.). We aim to provide our clients with solutions which are commercial, pragmatic and legally sound. This applies both to project developments and the drafting of contracts, to regulatory issues as well as to litigation and dispute resolution. Our particular expertise includes:

- Grid connection, grid expansion and requirements for grid optimisation, reinforcement and expansion
- Funding under the EEG and KWKG
- Regulatory classification of energy supply models
- Electricity and gas concessions
- Self-supply models
- Energy-intensive companies
- Contracting
- Energy supply contracts and power purchase agreements (PPAs)
- E-mobility, including EV charging stations and pricing
- Electricity and energy tax legislation
